FES 2026 HIGHLIGHTS

70,000 SQM EXHIBITION AREA

THE WORLD'S LARGEST PROFESSIONAL FASTENER EXHIBITION.

1.1H

Fastener Brand Pavilion and
Solution Pavilion

2.1H

Fastener Brand Pavilion &
Solutions Pavilion

3H

Fastener & Spring Equipment
Molds, and Materials Pavilion

1

A global benchmark exhibition, attracting overseas buyers and procurement delegations.

2

360° coverage of the fastener industry chain, including wire materials, finished products, non-standard parts, equipment, molds, and more.

3

Premium on-site events to facilitate connections among distributors, manufacturers, and end-users.

FES 2026 ON-SITE EVENTS

2026 F&J Fastening & Joining Conference

2025 REVIEW

1 AUTOMOTIVE LIGHTWEIGHTING
AND FASTENER & FIXING TRACK

SPEAKER

1 RAIL TRANSIT FASTENING SYSTEM
TECHNOLOGY TRACK

SPEAKER

200+
PARTICIPANTS

2026 OUTLOOK

In 2026, it will be upgraded to three parallel tracks and spans two days. The three track will focus on fasteners for the automotive, rail transit, and low-altitude flight industries

High value-added application scenarios. We will invite product development and assembly engineers from application sectors such as automobile OEMs, rail transit groups, and low-altitude aircraft manufacturers and others trending and long-anticipated technical topics related to fastening systems and related technologies.

National High-End Fastener Anti-Loose Technology Forum & Awards

2025 REVIEW

19 PARTICIPATING PRODUCTS ARE COVERED

Full metal
locking

deformed
tooth locking

flange face

double-
stacked washers

double nuts

double nuts

shear clamp

etc

2026 OUTLOOK

In 2026, the fifth edition of the event will continue its collaboration with China Testing & Certification International Group to engage over 100 industry-specific fastener manufacturers (including those in wind power, railway, construction machinery, etc.), universities, research institutes in the Fastener Anti-Loosening Challenge and related forums. By scientifically evaluating products performances including the anti-loosening functions, easiness of installation, recyclability, and other aspects, this events provides a basis for end-user to select products, and to explore commercial development pathways based on these evaluations.

Fastener Distributors Conference & Dinner

2025 REVIEW

**China's Top 200
Fastener Distributors Invited**

**Theme:
Winning Through Insight,
Breaking Barriers.**

2026 OUTLOOK

In 2026, we will invite 300 representatives from large fastener wholesalers and professional distributors across the country to discuss the fastener distribution landscape, market operation feedback, development plans for fastener manufacturing enterprises, and future dealer business models, followed by a related banquet.

FES 2026 ON-SITE EVENTS

Gold Screw Night & Awarding Ceremony

2025 REVIEW

600+

TOP EXECUTIVES

20+

INDUSTRY AWARDS

2026 OUTLOOK

A premier & engaging event for the fastener industry, attracting senior representatives from various industry associations and chambers, management executives, industry experts and scholars, as well as overseas delegates. In 2026, the scale of the event will be further upgraded, with more prestigious awards on site. This event aims to further encourage industrial and product innovation, recognize outstanding enterprises as benchmarks and role models, advocate for businesses to prioritize innovation.

Fastener Youth Forum

2025 REVIEW

Theme:
From Fastener Trade to Solutions.

**20+ second-generation
business owners from
the industry**

2026 OUTLOOK

Primarily serving the next-generation management personnels of the industry, this event focuses on cultivating young talent and addressing succession planning within the fastener industry. It's also serves as a dialogue platform for both new and seasoned fastener entrepreneurs to communicate with each other.

B2B Buyer Matchmaking Session

2025 REVIEW

20+

ON-SITE CONFERENCES

50+

MATCHING SESSIONS

2026 OUTLOOK

Upgraded in format, the match-making event in 2026 will leverage a digital platform and pre-event procurement needs surveys to achieve greater precision and efficiency. This event helps domestic enterprises connect with overseas buyers, enabling exhibitors to access high-quality buyers and improve their sourcing efficiency.

FES 2026 ON-SITE EVENTS

Fastener Steel (Shanghai) Forum

2025 REVIEW

200+
PARTICIPANTS

SPEAKER

中特
研究院

2026 OUTLOOK

In 2026, the fifth edition of the event will be further upgraded in scale, bringing together executives from major steel mills such as Baowu Steel, Xinggang, Jigang, Liuan Steel, Binzhou Steel, Zhongtian, Xianggang, Yonggang, Shagang, Yuanli, Angang, Xintai, Zhongnan, Qinggang, Xinxing, Longteng, Xingcheng, Jianbei, Beitaizi, Aosen, Fujian Sansteel, and Wohang Stainless Steel, as well as leading domestic fastener manufacturers for discussions and seminars.

China Fastener Network Equipment Procurement Festival

2025 REVIEW

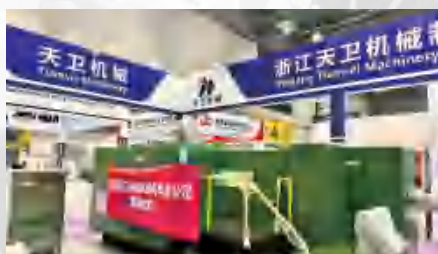

REVENUE GENERATED THROUGH ON-SITE ORDER

EQUIPMENT
340units

AMOUNT
About ¥53 million

2026 OUTLOOK

The procurement festival covers various fastener production and processing equipments, including multi-station cold heading machines, nut formers, thread rolling machines, sorting machines, and packaging machines. In 2026 additional incentives will be offered specifically for multi-station cold heading machines, along with more purchase discounts, to boost on-site equipment procurement for fastener manufacturers.

FES 2025 REVIEW

From June 17-19, 2025, the 15th Fastener Expo Shanghai (FES), organized by China Fastener Network, was successfully held at the National Exhibition and Convention Center. Over the past 15 years, the exhibition has been rooted deep in the fastener industry, focusing on both domestic and international markets and industrial application sectors. It has now become one of the world's top three professional fastener exhibitions and a globally recognized benchmark event in the fastener industry.

Organizer Introduction

China Fastener Network, established in 2004, is a national high-tech enterprise and the public brand of China Fastener Industry Group Co., Ltd. The company operates five divisions: Media, Exhibition, Digital, Quality Service, and Overseas Expansion.

Fastener Expo Shanghai (FES) was launched in 2010 by the Exhibition Division of China Fastener Network (Shanghai Ebseek Exhibition Co., Ltd.) and has since then been held for fifteen successful editions. It is widely recognized as one of the world's top three professional fastener exhibitions.

In 2025, FES surpassed its counterparts in Germany and the United States in terms of the exhibition floor space, becoming the world's largest fastener exhibition.

We warmly invite you together with over 30,000 industry professionals and buyers from around the world to join us at the National Exhibition and Convention Center for the 16th Shanghai Fastener Professional Exhibition (FES 2026).
